**PRODUCT DESCRIPTION**

Trimless double downlighter for general or accent lighting equipped with a LEDmodule especially to enlighten several food products. There's a choice between 'fish' to light up fish products, 'gold' for bakery goods and 'gold+' for rather crusty bakery goods such as croissants and baguettes.

The cannon 'meat+' provides a highly red color which is ideal for the presentation of meat.

Its 'fresh meat' is suitable to use for meat in the counter. Fruit is ideal for fruit and vegetables.

Available in a version for stretch ceiling and false ceiling.

Aluminium luminaire in several colors and color temperatures with several possible reflectors.
